

Specification Information

Product Code: 135-70A, 135-70B, 135-70C

Product Name: Automatic Hands Free Universal Paper Towel Dispenser

Individual Carton UPC: 135-70A- 624622135171, 135-70B- 624622135270, 135-70C- 624622135379

Individual Carton Shipping Dimensions: 66.7cm H x 37.5cm W x 23.5cm D (26 1/4" H x 14 3/4" W x 9 1/4" D)

Individual Carton Shipping Weight: 135-70A 12.7 kg (28 lbs), 135-70B 13.6 kg (30 lbs), 135-70C 14.9 kg (33 lbs)

Site Location: Frost's 135-70 series automatic hands free universal paper towel dispenser is available in recessed (135-70A), semi-recessed (135-70B) and surface mounted (135-70C). Typically, this product is used for architectural applications, such as: Airports, Offices, Restaurants, or any environment requiring multiple dispensers in high traffic areas. The product's compact and professional look makes it ideal for high volume areas.

Features:

- Easy to operate and maintain
- Comes standard with keyed tumbler lock to reduce pilferage
- Door hinged with full length piano hinge
- Paper towel delivery is quiet and uniform
- Reduces paper flow and provides maximum hygiene
- Heavy duty Canadian stainless steel

Dispensing: Frost code 135-70 series is a universal touchless paper towel dispenser and will accept all standard 20.3cm (8") wide roll towels, core size of 3.5cm (1 3/8") and greater. The large detection zone senses when the hand is placed in a natural position under dispenser and will deliver a 30.5cm (12") length of towel. The unit operates with 4 "D" size alkaline batteries (not included) or plug in AC adaptor (included). 4 alkaline batteries have been independently tested and found to provide 35,000 hand dries.

Capacity: Frost 135-70 series automatic universal paper towel dispenser accepts one jumbo 20.3 cm (8") x 20.3cm (8") paper towel roll. The unit will also hold a 6.4cm (2 1/2") reserve roll.

Materials:

- Front: 18 gauge type 304 stainless steel, no.4 brushed finish

Specification Information

- Body: 20 gauge galvanized steel
- Collar (if selected): 18 gauge type 304 stainless steel, no. 4 brushed finish

Product Dimensions:

- 65.4cm H x 34.9cm W x 22.9cm D (25 3/4" H x 13 3/4" W x 9" D)

Product Weight:

- 135-70A 12.2 kg (27 lbs), 135-70B 13.2 kg (29 lbs), 135-C 14.5 kg (32 lbs)

Installation Guidelines: Provide 62.5cm (24 5/8") high x 31.7cm (12 1/2") wide x 21.6cm (8 1/2") deep wall opening. Drill mounting holes as required. Please use appropriate screws and anchors (not provided) for the material that the unit is being mounted onto. If in doubt, please consult a qualified tradesperson. For unrestricted barrier free access, the height of top of unit to floor must not exceed 160cm (63") (or bottom of rough opening 96.5cm (38") from floor), this results in the sensor area being 119.3cm (47") or less from floor.

Maintenance: Normal preventative maintenance and cleaning will keep Frost products functioning properly and may extend normal product life. Products should be wiped down with a damp soft cloth periodically. Approved stainless steel cleaner may be used to clean scuffs or fingerprints on stainless surfaces. Do not use harsh detergents or chemical cleaners. For stainless steel please do not spray with any product containing bleach, acids, or chlorides, which can be found in many cleaning products such as toilet bowl cleaners. Use of these cleaning solutions may cause discolouration and if used for prolonged periods of time they can eat away at points in the stainless steel. If discolouration occurs, the use of an approved stainless steel cleaner and a firmer scrub pad, such as a Scotch Brite Pad #7447, may remove the markings. Wipe away any debris from the area and gently rub with the pad. Then spray the area with a stainless steel cleaner/polish and rinse and dry. Always wipe with the grain direction for stainless steel products. If a cleaning agent has begun to eat away at the steel on a unit then the unit will likely need to be replaced. The stainless steel that Frost Products uses is of high quality and stainless steel is resistant to rust. However, discolouration that appears to be rust can be caused by cleaning solutions and soaps mentioned above. It is important to discontinue use of any cleaning agent or soap if discolouration begins to occur. Clean off the discolouration as quickly as possible to avoid any permanent damage to the unit. Maintenance staff should be taught how to recognize the signs that they are not using the appropriate cleaning products and how to correctly maintain stainless steel items.

Warranty: If any product or part proves to be defective within 12 months from date of shipment from the factory it will be repaired or replaced without any charge including freight costs when authorized. Costs resulting from the installation or removal of defective products are not covered under this warranty. Discolouration to stainless steel parts resulting from exposure to harsh environmental and / or chemicals are not considered to be defects in workmanship or material and are not covered under warranty.
